

Name:

Friday 22nd March

Maths - measuring

Your measuring tasks are:

- Find 5 containers that hold different amounts of liquid. Draw the container and write how much it holds (eg. A 2 litre bottle of coke)
- Find 5 different unit to measure length and use them to measure 5 objects (eg. I could measure how long a chocolate bar is using the width of my finger)
- Find the weight of 5 different objects. Draw the object and write the weight
