

## ENGLISH

This half term we will be looking at biographies of famous people.

We will also be focussing on explanation texts.

## MATHS

- Multiplication
- Division
- Fractions including decimals

## RE:

What do different people believe about God?

Focusing on Islam, Judaism and Buddhism.

## ICT

What goes on behind the scenes of a science demonstration video?

We will plan, create and edit a short film of our science demonstration.

# Children of the future

## HISTORY/GEOGRAPHY/SCIENCE

We will be studying states of matter including solids, liquids and gases in science.

We will be looking at America and its geographical features.

We plan to research about people who have had an influence on our lives now and who will continue to in the future.

## REMOTE LEARNING

*As we are currently in lockdown and learning remotely we will adapt our usual coverage to be accessible in a remote environment. Any areas of the curriculum not covered remotely will be of priority when we return to school.*

## ART/DESIGN/MUSIC/PSHCE

We will explore relationships between line and tone, pattern and shape, line and texture.

In music we will compose and perform melodies and songs. We will use sound to create abstract effects.

In DT we will research and create items using various stitches.

This term we will be taking part in the Linking Schools Project.
