

St. Patrick's Day Card

You will need:

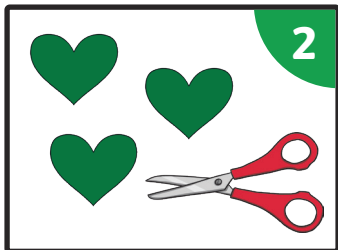

- A4 green card
- dark green paper
- light green paper
- scissors
- glue
- pencil

Follow these instructions to make a St. Patrick's Day Card. To use a template, put it flat on the piece of paper and draw carefully around it using a pencil. Then cut out the shape you have made.

Instructions:

1 Fold your green card in half. Do this by turning your card so the long sides are at the top and bottom. Then take the left corners and bring them across to the right corners. Left is this way: ←

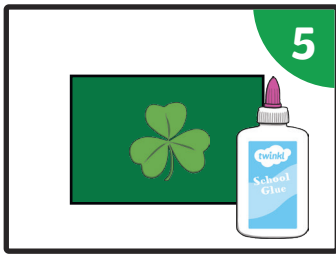

2 Use the templates to cut out three large dark green hearts, three smaller light green hearts and one dark green stalk. Ask a grown-up if you need help.

3 Stick one small heart onto each bigger heart.

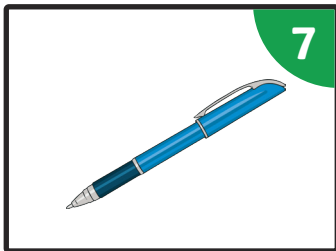

4 Now place the three hearts with the points meeting in the middle and the stalk in the gap. This will make a shamrock.

Stick the shamrock on to the middle of the front of your card.

Write 'Happy St. Patrick's Day' in your neatest writing on the front.

Write a message inside.
