

## HEADTEACHERS' MESSAGE

I am delighted to be having all our school children back to school next week. It has been a hard first term back for 2021 in lockdown for many of our school community but we have managed it together!

We appreciate how difficult this lockdown has been for many of us and we will be concentrating on getting our children settled back into school and their daily routines.

We have changes start and end times which were sent to you all via the re-opening letter which is on the front page of the website in latest news. Please make sure you know the times for the year group your child is in and the drop off and pick up points.

As of before please if you have more than one child we ask you bring them at the latest point and collect at the earliest. We will be on the playground as usual to assist.

To avoid gathering at the main office please bring children in KS1 round to their classroom doors where they will be let in.

We will continue to operate in year group and class bubbles to avoid mixing and increasing the risk of infection and therefore all breaks and lunches will be by bubble. Classes will be sat separately over lunch to try avoid whole year group isolation when a positive pupil case occurs.

I look forward to seeing you all soon!

## COVID-19

Please note that all the related paperwork for COVID-19 can be found on the school website in School Information tab at the top of the home page then COVID -19. We will review and update these documents as and when required by the government. Thankyou

## SECONDARY SCHOOL PLACES

We were delighted to see that 31 of our pupils received the first school choice this year, however we did have some who were less pleased with their given choices. We appreciate this can be a very stressful time in your child's progression from Primary School and are here to assist however we possibly can.

It is important if you are not happy with the school you have been given that you place your child name on the waiting list both via the local authority provided paperwork and via the schools. These can only be the schools on your chosen list.

Please follow the guidance provided by Bradford council in your email for the Appeals process. If you have any questions please feel free to contact the school and we will be happy to support you in whatever way we are able.

## ATTENDANCE

One of the key priorities in the guidance for re-opening schools is monitoring of attendance. Please help us to ensure we are able to be keeping to this guidance in sending your child to school every day. Our children need to be back to school and to some normality for their well being and academic needs. We will continue to monitor via the attendance team.

Thankyou
