

- 1) An explorer in the Antarctic is recording the positions of several different sea creatures on this coordinate grid. Using the clues, can you find the possible coordinate positions of the sea creatures on the grid? Is there more than one possible answer? Use the sea creature cutouts to investigate.

penguin = (,)

blue whale = (,)

orca = (,)

seal = (,)

shrimp = (,)

Clues	
a) The shrimp's position has the same number for both its x-axis and its y-axis coordinate.	b) The blue whale's position has an x-coordinate that is one quarter of its y-coordinate.
c) The penguin's position has a difference of 6 between the x-coordinates and y-coordinates.	d) The orca's position has coordinates that are both multiples of 5.
e) The seal's position has consecutive x-coordinates and y-coordinates.
