| Date: 25.1.22 |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Walt: solve multiplication facts related to the $2 \times$ table |  |  |  |  |
| What I am looking for is that |  | SM | PM | TM |
| B | You can match pairs together. You can count in steps of 2 and write the numbers correctly. <br> Challenge: You can fill in missing numbers in steps of 2. |  |  |  |
| R | You can make arrays to show multiplications from the 2 X table. You can correctly label the number of rows and columns. |  |  |  |
| $y$ | You can represent the 2 X table in different ways. |  |  |  |
| G | You can solve problems involving the 2 X table. |  |  |  |
