

Thursday Green Challenge

Make as many decimal numbers as you can using all eight place value counters on this place value grid. Find all possibilities.

Ones	tenths

Look at Layla's place value chart. She was making a decimal number using 10 counters but 4 have slipped off her chart on to the floor.

Ones	tenths

What could the number have been? Find all 5 possible answers. Use the place value grid in question 1 to help you.
