

Friday Green Challenge

This graph shows the number of children in year 5 and 6 who had a cake for their birthday.

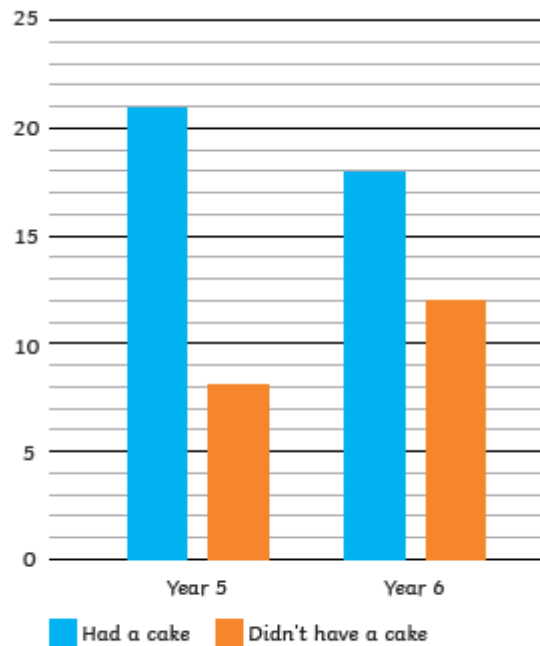

a) How many children are there in year 5?

b) How many children did not have a birthday cake?

c) How many more children had a cake than didn't?

d) Write two of your own questions that can be answered using this bar chart:

e) Write a question, about the children's birthday cakes in year 5 and 6, that you could not answer just from looking at this bar chart.
